Wednesday

EIGHT A.M. WEATHER REPORT. 1865.

day

Remarks.—

	B.	T.	W.	F.	Ex.—	D.	I.	R.	S.
Nairn	A sudden decrease of 6 or 7 tenths of an inch in the barometric pressure over Sweden yesterday — has been followed by very strong winds from SW & W on certain parts of the western & southern coasts of England. At Liverpool it blew a heavy gale this morning, although from Holyhead nothing more than a fresh wind has been reported. Cautionary telegrams were sent this morning to the northeastern coasts in the expectation of the stormy weather extending in that direction. A great quantity of rain fell last night, apparently in two bands across the country — from Greencastle to Leith — and from Holyhead to Shields. —
